

**CATALOGUE #:** 5F3cc

**PRODUCT NAME:** Monoclonal mouse anti-FITC

<b>MAbs <i>in vitro</i>:</b>	<b>2A3cc</b> Mouse monoclonal antibody produced in bioreactor. Hybridoma clone derived from hybridization of Sp2/0 myeloma cells with spleen cells of Balb/c mice.
<b>Immunogen:</b>	FITC-BSA conjugate
<b>Specificity:</b>	Fluorescein, FITC-labeled proteins. 2A3cc reacts with both free and conjugated FITC.
<b>MAb isotypes:</b>	<b>IgG1</b> for 2A3cc
<b>Applications:</b>	Detection of FITC-labeled antigens or antibodies. Capture antibody for FITC-labeled biopolymers. Enzyme-labeled second antibody for immunohistochemistry with FITC-conjugated mouse monoclonal antibodies.
<b>Purification:</b>	Protein A chromatography
<b>Presentation:</b>	PBS, pH 7.4, 0.09 % sodium azide (NaN <sub>3</sub> )
<b>Storage:</b>	+4 °C (+2 ... +8 °C allowed)
<b>Material safety note:</b>	This product is sold <b>for research or further manufacturing use only</b> . Standard Laboratory Practices should be followed when handling this material.  Product contains sodium azide as a preservative. Although the amount of sodium azide is very small appropriate care must be taken when handling this product.
