

# DataSheet

**CATALOGUE #:** 8RTT5

**PRODUCT NAME:** Recombinant human cardiac troponin T (cTnT)

---

**Synonym names:** Human cardiac troponin T adult isoform, human cardiac troponin T isoform #6 or TnT3

**Source:** Expressed in *E. coli*

**Protein sequence:** Product of gene TNNT2; 288 a.a.r.

Recombinant human cardiac TnT contains additional methionine residue at the N-terminus (in comparison with native protein expressed in cardiomyocytes).

**Application:** Calibrator or standard in immunoassays, immunogen for antisera production, mass cTnT standard

**Analysis:** Purity > 95 % (SDS-PAGE)

Concentration is determined spectrophotometrically, abs 0.1% (1 g/L) - 0.490 (measured at 280 nm)

**Immunological activity:** Immunoreactivity is confirmed by reaction with several monoclonal antibodies specific to different epitopes of human cardiac TnT isoform

**Purification:** Immunoaffinity purification followed by ion-exchange chromatography

**Presentation:** Lyophilized from 0.01 M HCl

It is recommended to reconstitute this product with Tris/urea buffer (20 mM Tris, pH 7.5, 7 M urea, 5 mM EDTA, 15 mM 2-mercaptoethanol), to a concentration close to 1 mg/ml.

**Storage:** Lyophilized -20°C (-15 ... -30 °C allowed)

Reconstituted -70 °C (-65 ... -80 °C allowed)

**Other information:** Avoid repeated freezing and thawing. It is recommended to aliquot the product after reconstitution.

**Material safety note:** This product is sold **for research or further manufacturing use only**. Standard Laboratory Practices should be followed when handling this material.
